06.07.13

I can't begin to explain how happy we are with Stratatomic as our new website designer and host. Ryan is easy to work with, always understands our requests, and completes everything in a timely manner. His marketing and design skills are phenomenal. He learns your company and portrays it in your website. Not being computer savvy people, we called Ryan and basically said here's our information, this is what we need, now work your magic. We trust him 100% and would highly recommend him to anyone.
