Dear Ryan,

What an incredible journey so far. As you know we began working with you and your team in the fall of 2004 redesigning the GSP International Airport web site.

Together, we made hundreds of changes and came up with a whole new look for the site, which was launched on March 1st of this year. The response has been both overwhelming and positive. The new site is packed with much more information than was previously available on the old site. Including such things as passenger traffic statistics, airport news and information, the ability to purchase airline tickets and make hotel and rental car reservations. On average, more than 10,000 additional visitors are coming to the new site each month.

The hard work and dedication displayed by you and your team before, during and after our site launch has been nothing short of phenomenal. We appreciate your efforts and we look forward to our continued working relationship.

Sincerely,
