Ryan,

Thank you for making our rebranding experience so easy. We are getting compliments on our new logo as well as our website daily. The website is easy to navigate and you took some great product photos. I have also seen an increase in our web traffic and the contact form you created gives us great information about the customer. I would highly recommend Stratatomic for website and logo design, Ryan will guide you through the process using his marketing and design skills.

Great Job!

Best,
